**Rationale for Proposed Boundary Changes:** Plummer's attendance zone expands at the south to absorb most of the closed Davis attendance zone; Kimball absorbs an area on the west increasing walkability for these families. Plummer is almost at capacity. Low boundary participation rate mitigates concerns of over-crowding.

**Proposed Geographic Destination Feeder Schools (Feeder Pathway):** Anyone living in the proposed new boundary for Plummer ES is zoned for and has a right to attend Sousa MS and Anacostia HS. Any student attending the school out-of-boundary has the right to continue in the feeder pattern to Sousa. Proposed feeder pattern changes were made to better align school building capacity with population and with feeder pattern participation rates and to support racial/ethnic and socio-economic diversity, where possible.

**Proposed Programmatic Destination School (Feeder Pathway):** No programmatic feeder pattern proposed.
